DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. § 121:
 - I. Claims 1-14, drawn to an isolated DNA sequence endogenous a eukaryotic AHAS small subunit protein, a plant expression vector comprising said DNA sequence and a transgenic plant comprising said DNA sequence, classified in class 800, subclass 300, for example.
 - II. Claims 15-21, drawn to an isolated DNA sequence encoding a plant promoter sequence, a plant expression vector comprising said DNA sequence and a transformed plant comprising said vector, classified in class 536, subclass 24.1, for example.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions unrelated because the isolated DNA of Group I, encoding a eukaryotic AHAS small subunit protein is structurally, functionally and compositionally distinct from the promoter DNA sequence of Group II. In addition, the promoter DNA sequence of Group II cannot be used to make the transgenic plant of Group I comprising a DNA sequence encoding a eukaryotic AHAS small subunit protein.

Art Unit: 1638

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, recognized divergent subject matter, and because the search required for one of the groups is not required for another, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete within one month (not less than 30 days) must include an election of the invention to be examined even though the requirement be traversed (37 CFR § 1.143).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David H. Kruse, Ph.D. whose telephone number is (703) 306-4539. The examiner can normally be reached on Monday to Friday from 8:00 a.m. to 4:30 p.m.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dr. Amy Nelson can be reached at (703) 306-3218. The fax telephone number for this Group is (703) 872-9306 Before Final or (703) 872-9307 After Final.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group Receptionist whose telephone number is (703) 308-0196.
